## \*\*\* AbHaulier \*\*\* Types of Licences and Prices

Installation of every copy of \*\*\* AbHaulier \*\*\* requires acceptance of 'Cascade's Simple Licence Agreement for \*\*\* AbHaulier \*\*\*' as included below. This Licence Agreement allows the licensee to install and use a specified number of copies of the program in accordance with the terms of the Agreement.

In all installations of \*\*\* AbHaulier \*\*\*, the first or only copy installed is the main installation, and any additional copies installed on other computers on the same network act as satellites to the first, enabling additional users to utilise the program to prepare and send notifications themselves.

A licensee wishing to set up more than one installation of \*\*\* AbHaulier \*\*\* at other locations can purchase or rent additional licences at a reduced rate, but each installation must be set up and operated in the same way.

Each installation of \*\*\* AbHaulier \*\*\* is designed to be customised to compile and send abnormal load notifications to bridge and police authorities from several different companies or company depots, all within the same computer network installation. For example, a company with several depots could use a single network installation of the program to submit notifications on behalf of and customised to each depot. Or a group of companies operating in the abnormal loads field could use a single network installation of the program to submit notifications customised to each company in the group. Likewise hauliers agents can submit notifications on behalf of the many companies they represent, using the contact details of the agent.

Under a standard licence, the number of separate companies or depots that can be set up on a single installation is now limited to five. Multiple company licences are available to allow the initial count of five to be extended in sets of five additional companies. Unrestricted and rental licences are also available. Rental licences have a minimum period of one year.

The \*\*\* AbHaulier \*\*\* Helpline, free for the first 3 months and optional thereafter, entitles the licensee to service upgrades for the version purchased during the currency of the Helpline together with telephone help during office hours. Any Helpline purchase must cover every copy of \*\*\* AbHaulier \*\*\* held by the licensee. Rental licences include full Helpline support.

The prices for each type of licence and associated Helpline are set below:-

<i>type of licence</i>	<i>Helpline pa</i>	£	£
Standard 5 company single installation single user	250		695
Standard 5 company single installation additional user	80		245
Extra 5 companies on a single installation single user	nr	150	
Extra 5 companies on a single installation additional user	nr	75	
Unrestricted single installation single user	250		1695
Unrestricted single installation additional user	80		345
Standard 5 company additional installation single user	80		345
Standard 5 company additional installation additional user	25		145
Extra 5 companies on an additional installation single user	nr	50	
Extra 5 companies on an additional installation additional user	nr	25	
Rental licences can be purchased for any of the above combinations at 10% quarterly or 35% annually of the licence cost, minimum period one year, which includes the Helpline			
Upgrade from *** AbHaulier *** v4.x.x at 50% of the new licence cost			
<i>All licences come with 3 months free Helpline</i>

CIVIL & STRUCTURAL ENGINEERING SOFTWARE

## Cascade's Simple Licence Agreement for \*\*\* AbHaulier \*\*\*

When you purchase \*\*\* AbHaulier \*\*\*, Cascade Software Limited grants you a licence (non-exclusive, non-transferable and without rights to sub-licence) to use the number of copies you have purchased of a version of the program which is customised to you. If you purchase a rental licence, then all rights of use expire when the period paid for expires, which period may be extended by additional payments as set out in the Schedule. The minimum rental period is one year.

You in turn undertake to use the program solely for its intended purpose in the manner described in the included Help file, and not to modify, adapt, decompile or otherwise change or read the program, or use it in any other way.

Cascade states that it has made every reasonable effort to ensure that there are no significant errors in the program and that its use as described in the included Help file is in accordance with relevant Statutory Regulations and Codes of Practice current at the time the program was written.

Cascade does not therefore guarantee that the program is free from error or cannot be misinterpreted, nor does it warrant the accuracy or suitability of information accessed through the program from internet websites, and it is your responsibility to make such checks as you consider necessary to ensure that the program and such information is suitable for your use.

Cascade is not responsible for any errors, inaccuracies or faults which may arise as a result of your use of the program nor for any special, incidental or consequential losses or damage arising from its use.
